8. KEY INSIGHTS

- **Geopolitics markets** have highest individual trader positions (anoin123: $104K)
- **Trading competitions** identify consistent winners (Pepper, TheDev)
- **Crypto markets** show high frequency trading with smaller positions
- **Top traders** specialize in specific categories
- **Diversification** across categories reduces risk

9. HOW TO USE THIS DATA

- **Select traders** based on your risk tolerance
- **Allocate capital** across multiple traders (not just one)
- **Start small** - 10% of intended investment
- **Monitor performance** weekly
- **Adjust allocations** based on results
